

FORTDRESS GROUP

Food Safety and Hygiene Clothing

Season 2025

We keep you going.

We Keep Our Customers in the Food Industry Going.

In an industry that is constantly evolving, the Fortdress Group, an innovative and successful family business, understands the importance of first-class workwear. Under our Fortdress brand, we develop products that can withstand extreme conditions in cold stores while offering comfort and style. In addition to head protection and teamwear, we also offer robust work shoes and specific products for food production, such as detectable items. Our innovative drying systems keep your equipment ready for use at all times.

The Fortdress Group has been the preferred partner for global players in food logistics for almost two decades. Our products not only impress with their quality, but also with the integrity and reliability that have characterised our brand for generations.

For buyers and warehouse managers worldwide who value quality, safety and reliability, the Fortdress Group is the reliable partner at their side. Our global dealer network guarantees the availability of our products while maintaining our high quality standards.

In the dynamic and complex world of food logistics, challenges are the order of the day. With equipment from the Fortdress Group, you are ideally positioned to meet these challenges and successfully master your everyday work.

Detectable Products

Protect Your Products from Contamination by External Particles.

Maintaining product integrity is absolutely essential, especially in industries like food and beverage production or pharmaceutical and medical manufacturing.

That is why the Fortdress Group relies on a strong partner like Retreeva Global to keep your production running. Retreeva Global continually seeks ways to reduce risks.

They specialise in the development and manufacture of food-grade metal and X-ray detectable utensils that ensure maximum traceability.

This significantly reduces the risks to consumer health and your brand reputation caused by unwanted contaminants entering the final product.

Highly Visible Ink Indicators →
The colour of the button indicates the writing colour.

Good pull-back Mechanism →
Cartridge does not jump out of position from its position even under high pressure.

Smooth Surface →
Comfortable to hold and easy to clean, making it suitable for greasy and cold areas.

Safe under Load →
Moulded from shatterproof polymer, making the pen unbreakable.

Detectable outer Cover →
Metal and X-ray detectable, food-safe in four different colours.

Mine with Long Life →
With regular ink, gel ink or printing ink.

← **From a Single Mould**
No separate push button, safety without small parts.

← **Large Holding Loop**
To attach a lanyard to attach a lanyard.

← **To attach a Lanyard**
Practically unbreakable design. Pen also available without pocket clip.

← **Traceability**
Food safety thanks to permanent markings on the pen housing for traceability (e.g. serial numbers, area names).

← **Contours for Thumb and Index Finger**
With textured surface for better grip.

← **Unique Cartridge Guide**
Designed without a metal spring, as this is often undetectable.

Choose the Best Pen Case for Your Application.

Non-retractable Models

Often referred to as a „stick“ or „one-piece“. Resists all attempts to separate the components. Available with and without pocket clip.

Retractable Models

The stable mechanism ensures secure writing, even under high pressure. Available with and without pocket clip.

Lanyard Loop

The large loop on all Retreeva pens makes it easy to attach the pen to a lanyard. Can be used anywhere where pocket clips are prohibited.

Pocket Clip

The traditional „Achilles heel“ of detectable pens. The clips from Retreeva are practically unbreakable.

The Right Ink for Your Application.

Highly visible ink indicators

The plunger indicates the ink color of the pen, allowing the ink color to be identified at a glance.

Regular ink

Only the best ink cartridges with tungsten carbide tips are used, ensuring a long service life.

Print ink

Suitable for writing on dirty or greasy surfaces in damp conditions or at low temperatures. Conditionally suitable for use in deep-freeze areas.

Gel Ink

Provides a good writing experience on smooth and difficult surfaces at low temperatures. Preferably used in cold stores and freezers.

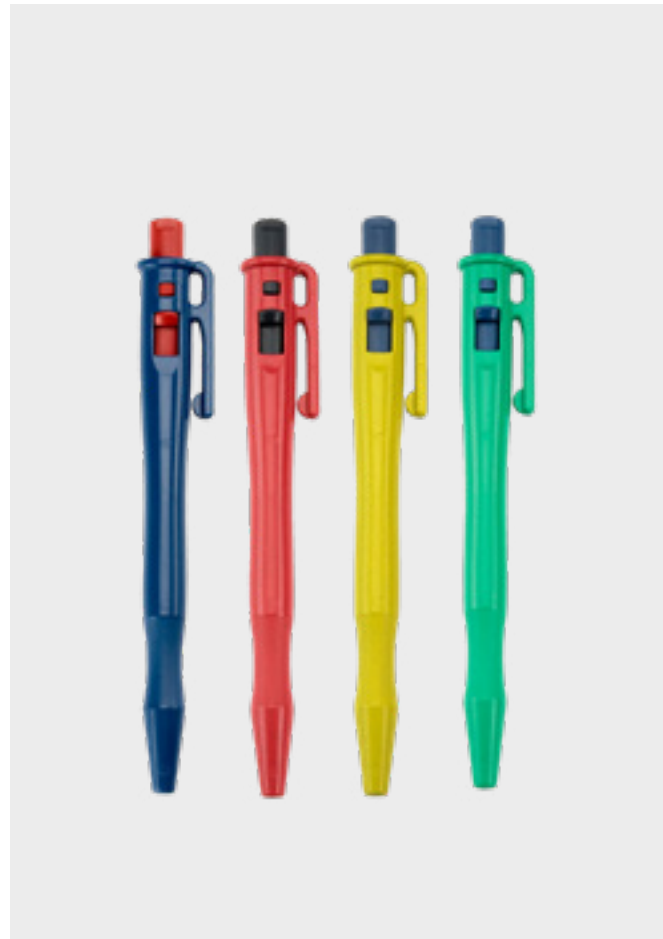

Pen ALEX

Without metal nib · the cartridge does not jump out of position even though a lot of pressure is applied to the writing point · ink colour recognisable by upper button · with clip · shatterproof · large lanyard loop for attaching a cord · smooth surface · easy to clean · ergonomic grip with textured surface for optimum hold · safe under pressure · shatterproof due to shatterproof polymers safe polymers · with carbide ball · retractable lead · preferred option for most applications · best suited for dry conditions · food contact compliant according to EU & FDA

Item No.: DS200

Pen IGOR

Without metal nib · retractable cartridge · sturdy cartridge · ink colour visible on plunger · with clip · break-proof · lanyard loop · ergonomic grip · smooth surface · easy to clean · splinter- and break-proof · hard metal ball · refill is cold-resistant and suitable for special use on damp, dusty or slightly greasy surfaces · smooth, even when writing on damp, dusty or slightly greasy surfaces · food contact compliant according to EU & FDA

Item No.: DS250

Pen LUCAS

With clip · retractable cartridge · ergonomic grip for optimum hold · easy to clean · suitable for normal conditions · one-piece, break- and splinter-proof · food contact compliant according to EU & FDA

Item No.: DS100

Pen BEN

Stainless steel cartridge · suitable for temperatures ranging from -30°C to +5°C · retractable refill · without spring · antibacterial · with clip · shatterproof · food contact compliant according to EU & FDA

Item No.: DS800

Pen ELEPHANT

Retractable cartridge · optionally with clip or ring · suitable for temperatures ranging from -30°C to +5°C · splinter and break-proof · refillable · optimum grip with gloves thanks to triangular handle · food contact compliant according to EU & FDA

Item No.: DS888

Pen GABRIEL

Stick pen · fixed refill · suitable for X-ray and metal detectors · no small parts, as one-piece · available with blue, green, red or black casing · available with blue, black, green or red refill · available with clip, without clip or ring · optimum grip thanks to triangular structure · break-proof and shatter-proof · suitable for normal temperature range · food contact compliant according to EU & FDA

Item No.: DS111

Pen FRANK

Detectable biros · with stainless steel nib · ergonomic grip for optimum hold · available with blue, black, red or green refill · available with clip, no clip or neck strap · suitable for X-ray and metal detectors · shatterproof · suitable for temperatures from 0°C to 30°C · food contact compatible in accordance with EU & FDA

Item No.: DS610

Pen HOT AND COLD

Retractable refill · optionally with clip, without clip or ring · optionally with blue or black refill · refillable · shatterproof and break-proof · ergonomic grip for optimum hold · with cryogenic ink · suitable for temperatures from -15°C to +60°C · suitable for many areas, e.g. cryogenic or wet environments, powdery, greasy surfaces · food contact compliant according to EU & FDA

Item No.: FA8

Gel Pen GERD

Retractable gel refill · the cartridge does not jump out of position even when a lot of pressure is exerted on the writing point · ink colour recognisable by upper button · with clip · splinter-proof and break-proof · large lanyard loop for attaching a cord · without nib smooth surface · easy to clean · ergonomic grip with textured surface for better grip and writing comfort · hard metal ball · suitable for cool temperatures below 0°C · preferred option for cold storage and freezer applications · food contact compliant according to EU & FDA

Item No.: DS240

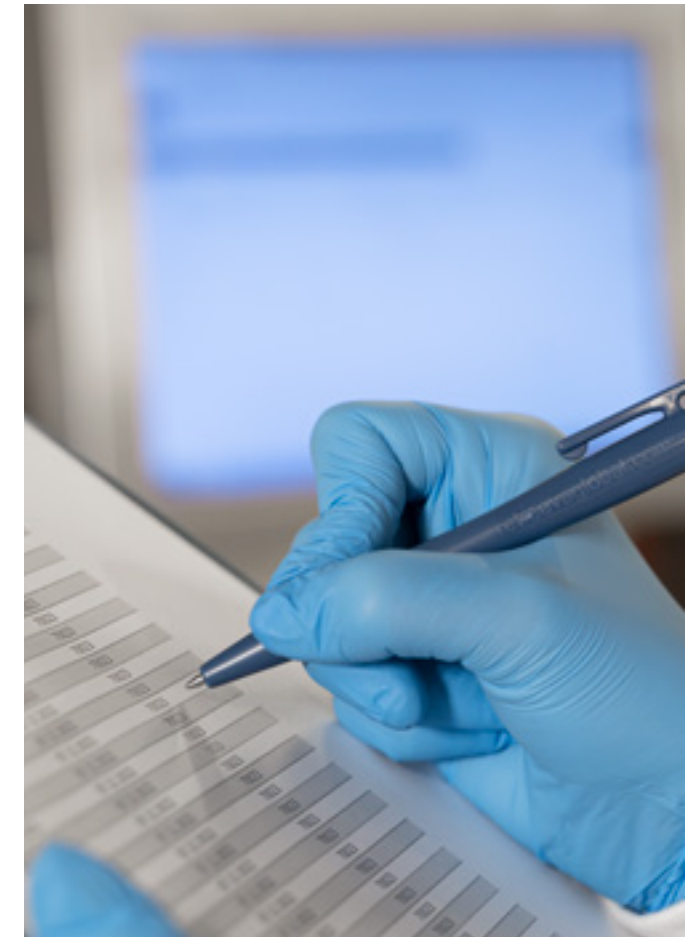

Gel Pen KLAAS

Retractable gel refill · shatterproof · ergonomic grip for optimum hold · blue casing · refillable · available with blue, red or black refill · available with clip, without clip or ring · suitable for X-ray and metal detectors · suitable for temperature range from -5°C to +30°C · food contact compliant according to EU & FDA

Item No.: DS170

Touchscreen Pen TANGO

Scratch-free · HACCP tested and certified · pen made from a single piece · suitable only for non-capacitive screens · food contact compliant according to EU & FDA

Item No.: DS113

Metal Pen HANNO

Silver brass casing · sturdy clasp clip · high-quality refill · not food-safe according to EU 10/2011 · blue refill · weight: 19 g · suitable for laser engraving

Item No.: DS410

Spare Refill

Available with blue, red or black refill · non-detectable

Item No.: FA10M

Fine Marker WILLIBERT

Permanent · ideal for CDs, plastic, writing on smooth and glossy labels · all parts made of detectable plastic · coloured end to indicate writing colour · Food contact compliant according to EU & FDA

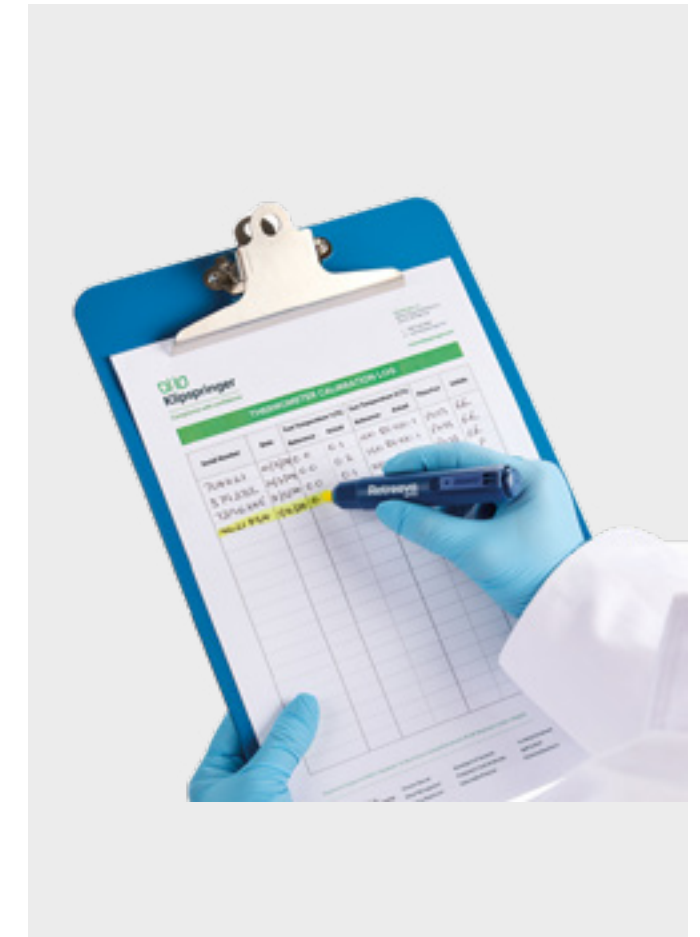

Item No.: DS902

Neon Highlighter JUSTUS

Maximum detectability · Metal and X-ray detectable highlighters made from FDA-compliant food-grade materials in the generally recognized color for visual detection · Retractable lead · Ergonomic design for easy handling · Dry-erase ink · Low-odor, quick-drying ink · Chisel tip · food contact compliant according to EU & FDA

Whiteboard Marker MIKE

Maximum detectability · metal and X-ray detectable pens made of FDA-compliant food-safe materials in the generally recognised colour for visual detection · retractable refill · ergonomic design for easy handling · dry-wipe ink · round tip · low-odour, quick-drying ink · for use on whiteboards and wipeable surfaces · food contact compliant according to EU & FDA

Item No.: DS315

Whiteboard Marker MARTEN

Ergonomic · 15mm diameter barrel for greater writing comfort and ease without compromising on ink quantity · Dry wipe ink · For use on whiteboards and wipe clean surfaces · Low odour, quick drying ink · Xylene and tourene free · Bullet writing tip · Child-safe cap · 6 day cap off time · food grade · ergonomic shape · low round tip · For use on whiteboards and wipeable surfaces · food contact compliant according to EU & FDA

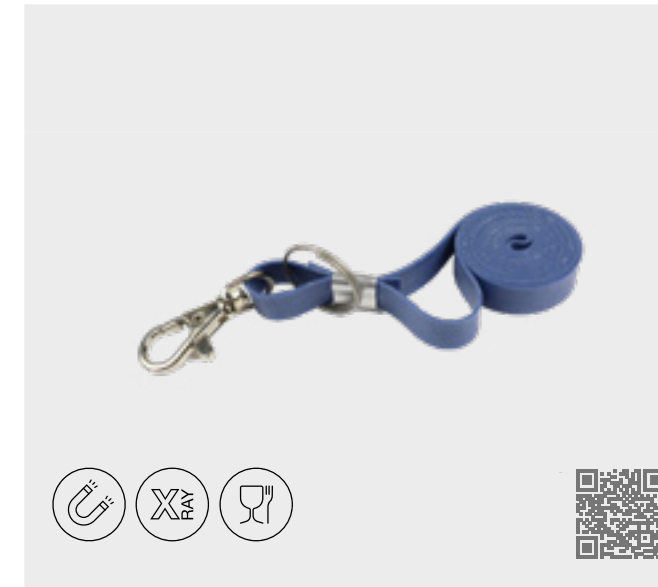

Item No.: DS285

Whiteboard Marker TIMO

Retractable cartridge · without cap · available with round or flat tip · food contact compliant according to EU & FDA

Item No.: DS920

Lanyard WILHELM

Strap made of detectable silicone rubber · suitable for metal detectors · with snap hook and ring · total length: 100 cm · width: 1 cm · blue strap · ideal for attaching ballpoint pens, card holders, safety knives, keys, etc. · food contact compliant according to EU & FDA

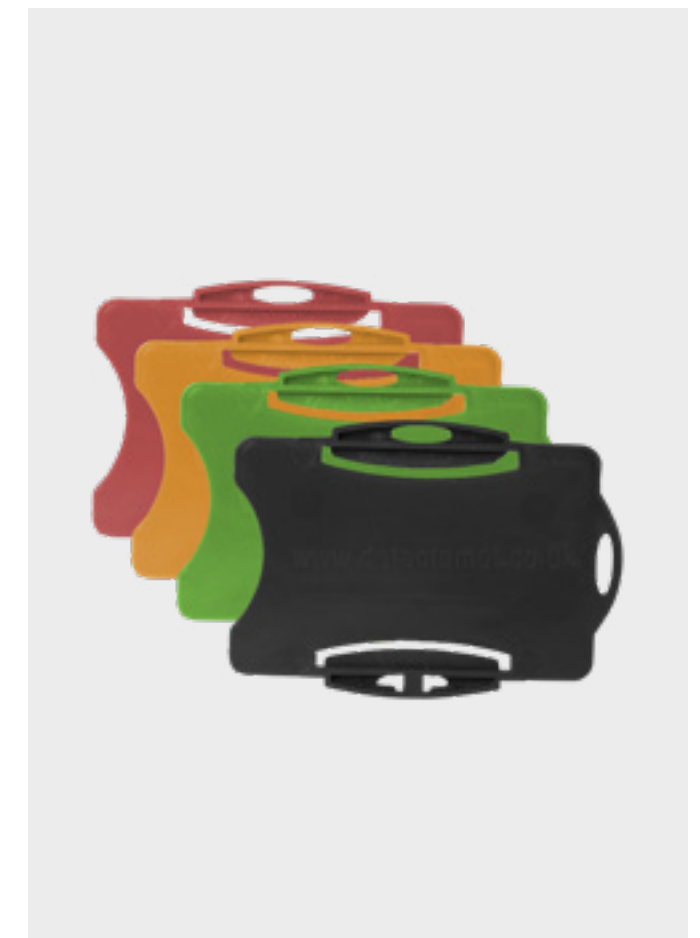

Item No.: DZ883

Card Holder ALFRED

Antimicrobial material · 3 eyelets for attaching a lanyard or key reel · or key retractor · suitable for chip cards according to (ISO 7816) ID-1: 85.60 · mm × 53.98 mm [e.g.: EC cards, health insurance cards, etc.] · food contact compliant according to EU & FDA

Stainless Steel Ring Binder DIEGO

Stainless steel · format: A4 portrait · 2 rings · HACCP compliant · holds up to 350 sheets · chrome rings · powder-coated surface · suitable for X-ray and metal detectors · dimensions: 255 mm x 310 mm x 50 mm (10" x 12 1/4" x 2") · weight: 1170 g · food contact compliant according to EU & FDA

Item No.: DM927

Stainless Steel Clip (Replacement for Clipboards)

Single clamp · width: 145 mm · stainless steel · rounded edges · replacement for clipboards · mounting hole Ø: 5mm · suitable for X-ray and metal detectors · food contact compliant according to EU & FDA

Item No.: DM903

Plastic Clipboard

Very light · washable · stainless steel clip · format: A4 portrait · holds approx. 100 sheets of paper · dimensions: 230 x 320 mm · suitable for X-ray and metal detectors · food contact compliant according to EU & FDA

Item No.: FT910-02

Stainless Steel Clipboard A4 KIAN

Stainless steel clip · Clipboard made of stainless steel · Holds approx. 100 sheets of paper · Dimensions: 230 x 320 mm · Format: A4 portrait format · HACCP compliant · Weight: 750 g · Suitable for X-ray and metal detectors · Food contact compatible according to EU & FDA

Item No.: DM901

Hand Calculator ALBERT

No battery change necessary · Compatible with HACCP · Blue housing · With stainless steel lanyard with break lock · Reinforced fastening loop · Suitable for X-ray and metal detectors · Detectable silicone keypad · Dimensions: 75 x 125 mm · Food contact compliant according to EU & FDA

Item No.: DZ200

Hand Calculator ALEXANDER

Housing, buttons and internal parts are completely metal detectable & X-ray detectable · large display · large buttons · dual power supply, optionally with AAA battery · includes all standard mathematical functions · strong, durable and hygienic construction · compatible with HACCP processes · food contact compliant according to EU & FDA - dimensions: 123 x 175 x 32 mm

Item No.: DZ220

Hand Calculator ARCHIMEDES

Fully detectable buttons · Automatic switch-off · 8-digit digital display · Solar powered · Dimensions: 15 x 12 cm · Food contact compatible according to EU & FDA

Item No.: DZ210

Foil Cutter SECUMAX POLYCUT MDP

Maximum safety · no blade change - ergonomic for optimal grip · cutting depth: 3 mm · for left and right-handers · eyelet for fastening · stainless steel blade · high abrasion protection · disposable knife, as blade is not changed · long, pointed nose · dimensions: 76.1 x 3 x 45.1 mm · material: metal-detectable plastic · weight: 9.4 g · food contact compliant according to EU & FDA

Item No.: DC850-A

Scissors PAULA

blades made of stainless steel · blue handle color · suitable for X-ray and metal detectors · size: 210 mm · blade length: 90 mm · food contact compliant according to EU & FDA

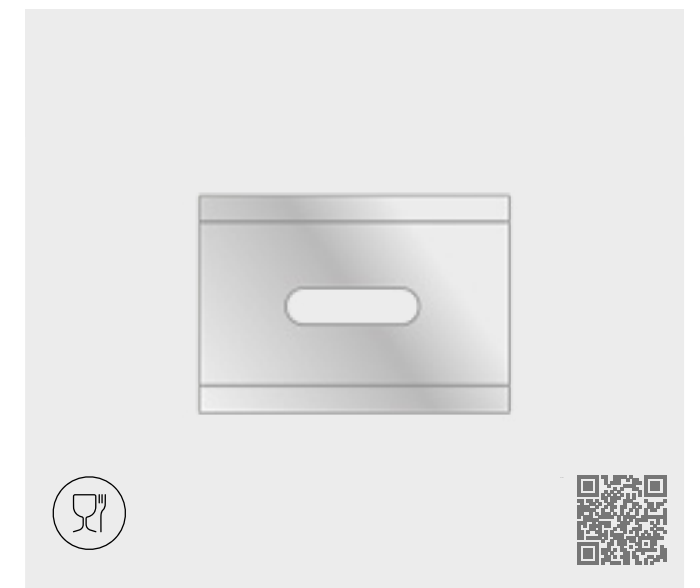

Item No.: FT1006

Foil Cutter SECUMAX 320 MDP

maximum safety · safe blade change (thanks to magnet) · high abrasion protection · ergonomic for optimum grip · 4-way usable blade · cutting depth: 4 mm · adhesive tape scribe · for left and right-handers · eyelet for fastening · rustproof · concealed blade · rounded blade nose · material: metal-detectable plastic · weight: 60 g · dimensions: 158 x 13 x 56 mm · food contact compliant according to EU & FDA

Item No.: DC106

Replacement Blade (for DC106)

Replacement blade for DC105 · stainless · 39 x 18.4 mm · 1 PU = 10 pieces in a pack · outer packaging = 10 packs · food contact compliant according to EU & FDA

Item No.: DC106K

Ring Knife SAURON

Indispensable helper when cutting · open ring, suitable for all finger sizes · ideal for foil, yarn and cord · blade injection-moulded to prevent injury · increased safety thanks to metal-detectable blue plastic parts · stainless, food-safe blades · for left and right-handers · no blade change · high abrasion protection · ergonomic for optimum grip · food contact compliant according to EU & FDA · cutting depth: 6 mm · weight: 3.5 g · dimensions: 34.3 x 23.2 x 18.4 mm

Item No.: FT307

Safety Knife MIZAR

Squeeze-grip knife · made of glass fibre reinforced recycled plastic · smooth-running lever · rounded blade · cutting depth: 13 mm · high safety · blade change without tools · high abrasion protection · ergonomic for optimum grip · incl. safety catch · 2-fold usable blade · ceramic blade can be used · rounded trapezoid blade · for left and right-handers · eyelet for fastening · for various types of cutting · weight: 59 g · dimensions: 139 x 15.6 x 50.5 mm

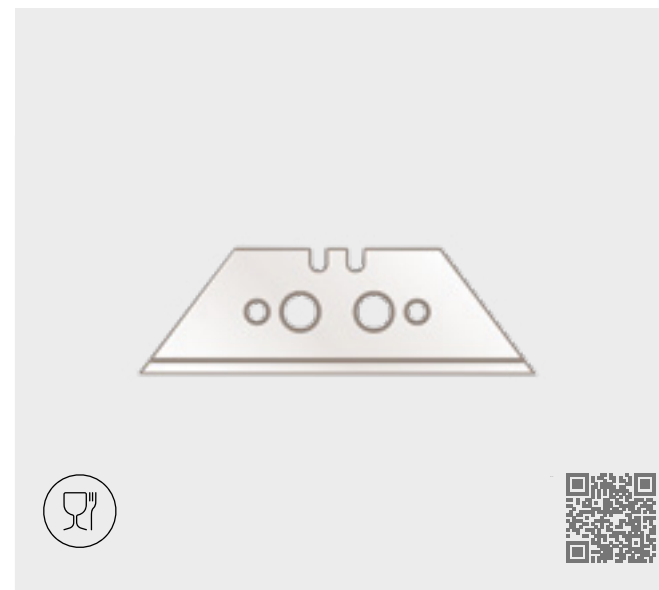

Item No.: DC125

Safety Knife LARS

Retract system (automatic blade retraction) · blade change without tools · maximum abrasion protection · ergonomic for optimum grip · 2-way usable blade · stainless steel blade · for left and right-handers · robust aluminium housing with plastic · dimensions: 143 x 17 x 31 mm · cutting depth: 21 mm · aluminium · weight: 84.5 g · food contact compliant according to EU & FDA

Item No.: DC102

Replacement Blade (for DC102, DC125)

Trapezoid blade with wide grind, ground on 2 sides · stainless steel blade · material thickness: approx. 0.63 mm · dimensions approx.: 60 mm x 19 mm · can be mounted in: LARS (DC102), MIZAR (DC125) · food contact compliant according to EU & FDA

Item No.: DC102K

Scraper LEVI

stainless steel · with flexible blade · handle made of metal detectable plastic · dimensions: 120 x 100 mm · food contact compliant according to EU & FDA

Item No.: DR840-F-01

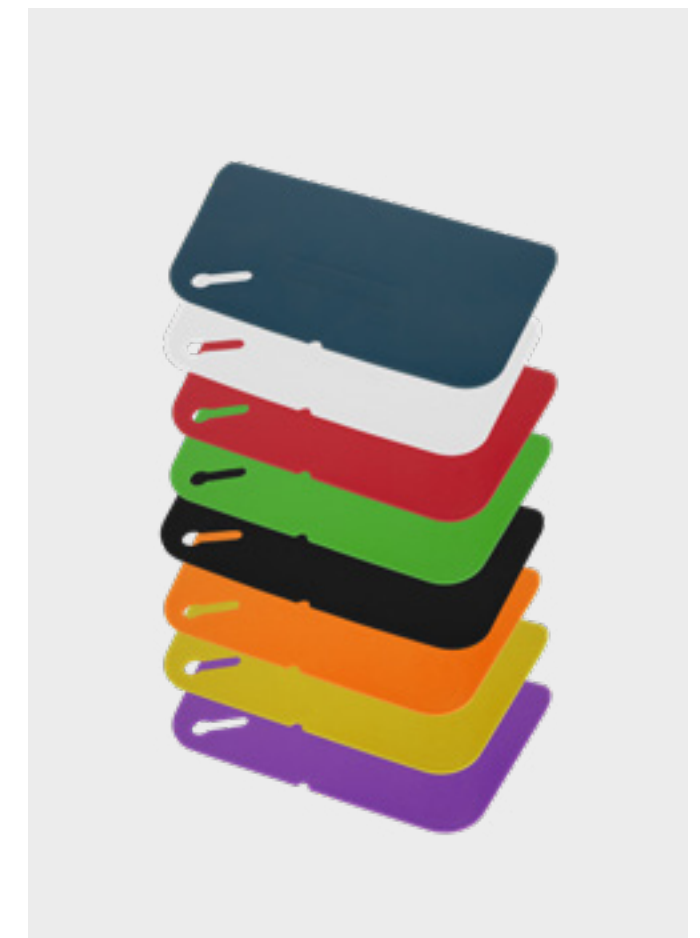

Scraper MAXI

Keyhole for attaching to chain · Thickness: 1.89 mm · Dimensions: 225 x 120 mm · Food contact compliant according to EU & FDA

Item No.: FT818

Scraper EMIL

Improved detection values · increased resistance to physical and thermodynamic influences · food-compliant in accordance with EU 10/2011 · trapezoidal shape · dishwasher-safe · dimensions: 21.5 x 12.5 cm

Item No.: DR830

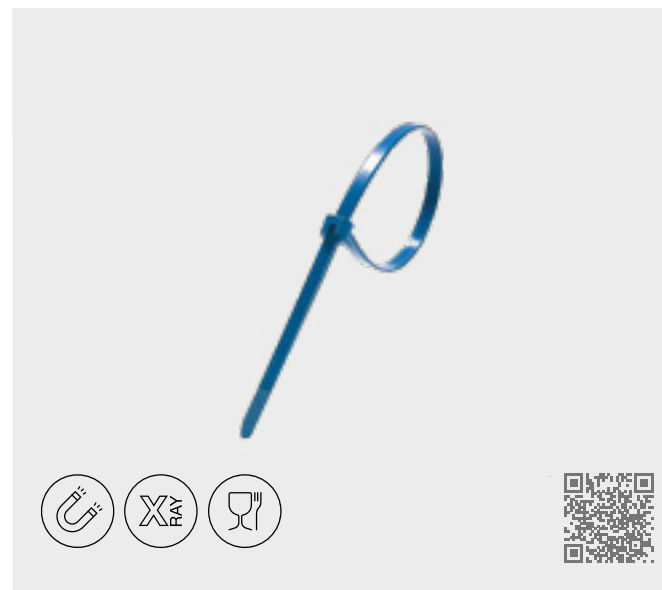

Bucket CONSTANZE

Bucket detectable · without lid · Capacity: 15 liters · Food contact compliant according to EU & FDA

Item No.: FT42

Polyamide cable ties with stainless steel locl

Pack of 100 · UV-resistant · halogen-free · silicone-free · with stainless steel latch · made of polypropylene · for use in liquid-processing environments · minimum tensile strength: 130 N · operating temperature: -40°C to +85°C · minimum installation temperature: -40°C · food contact compliant according to EU & FDA

Item No.: FTK11

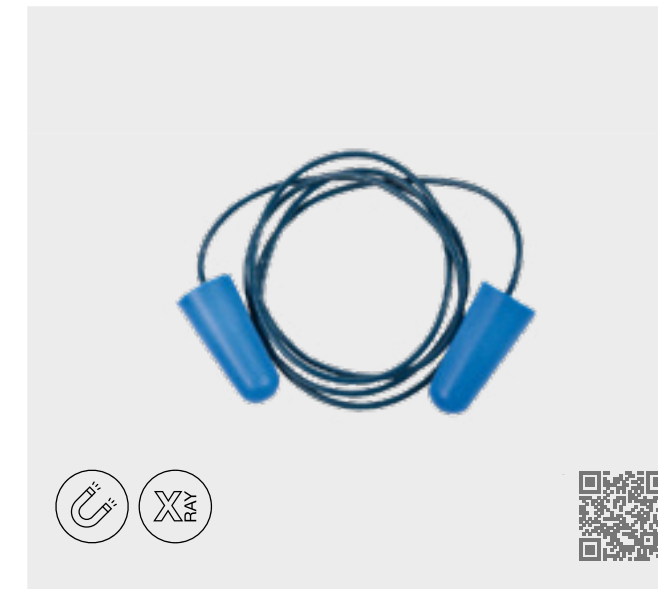

Size: 92 x 2,4 mm, 186 x 4,8 mm, 340 x 7 mm, 360 x 4,8 mm

Bag Gripper FABIO

Suitable for BRC systems · reliably seals bags and sacks · reusable · robust · can be used down to -50°C · closure: 10 cm · length: 240 mm · material: detectable plastic

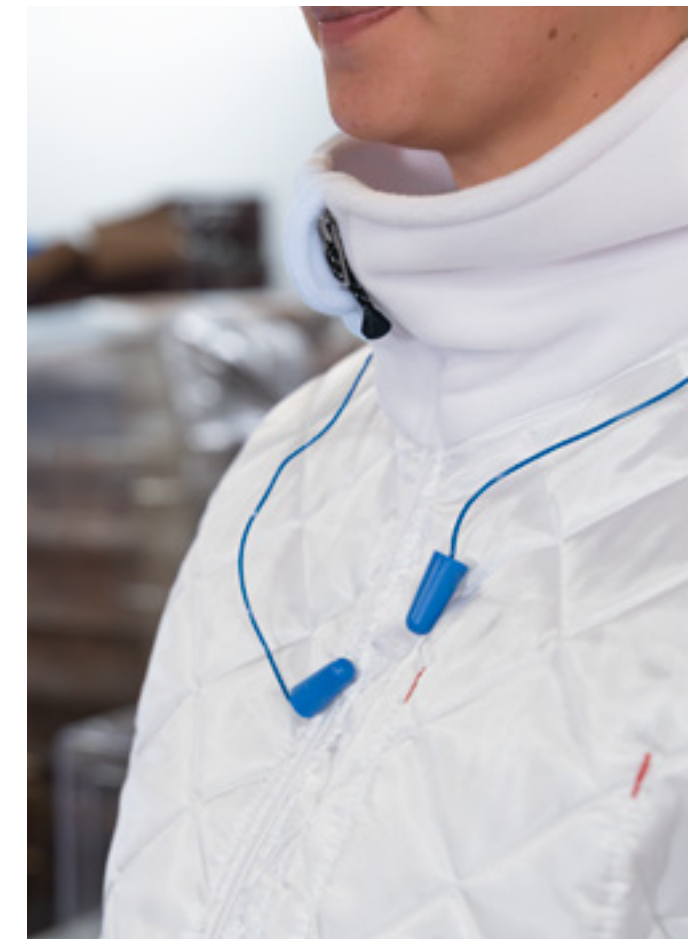

Item No.: DZ291

Hearing Protection Plugs

Disposable earplugs with cord · wired metal detection · very soft foam · SNR value: 39 dB · Standard: EN 352-2

Item No.: FEP100

Hearing Protection Plugs ORLAN

With cable · cable length: 600 mm · available with two or three flanges
SNR value 2 flanges: 19 dB · SNR value 3 flanges: 19 dB · durable · food contact compliant according to EU & FDA

Item No.: DP500-02

Glasses Strap ANSELM

Stainless steel clip · adjustable spring · round cord · lightweight · comfortable · made of silicone · length: 71 cm · food contact compliant according to EU & FDA

Item No.: DZ877

Glasses Strap KURT

Temperature resistant from -60°C to +200°C · with aluminium clips · length: 65 cm · width: 1 cm · eyelet 4 mm

Item No.: DZ882

Glasses Strap RICHARD

Temperature resistant from -60°C to +200°C · with aluminium clips · Length: 65 cm · Width: 1 cm · Eyelet 6-7 mm

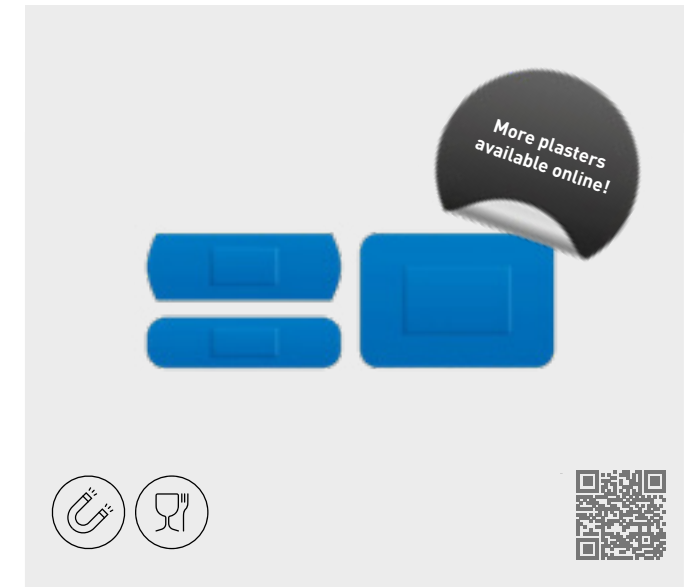

Item No.: DZ884

Glasses Strap KNUT

Temperature resistant from -60°C to +200°C · with aluminium clips · Length: 65 cm · Width: 1 cm · Eyelet 11 mm

Item No.: DZ885

Plaster TINA

100 pieces mixed · detectable plasters · backing material: PU film · oil-resistant · aluminium foil under the wound pad, which can be detected by metal detectors · water and dirt repellent · visually and electromagnetically detectable · strong hypoallergenic adhesive for fewer skin reactions · latex-free · in accordance with HACCP, IFS, BRC standards · food contact compatible in accordance with EU & FD

Item No.: DP850 | Size: 30 pieces: 19 x 72 mm, 30 pieces: 25 x 72 mm, 20 pieces: butterfly, 20 pieces: knuckle

Freezer Clothing and Underwear

Our Strong Sub-Brand: FORTDRESS - Better Work.

Because we know from our many years of experience that working in the refrigeration and logistics industry is a real back-breaking work, we do everything we can to develop clothing that performs, is lightweight, flexible and comfortable, and comes with fine details that make all the difference.

We offer our own clothing for different areas to enable our customers to work fearlessly. Increase your productivity in logistics & cold storage - thanks to our strong sub-brand.

Our Product Series:

SHIELD

Shield is the series for anyone who needs fundamental protection. Our certified products offer both – protection and perfect warmth at an affordable price.

- ✓ FUNDAMENTAL PROTECTION
- ✓ COST EFFICIENCY
- ✓ THE RIGHT WARMTH

CATAPULT

For all who want to get things done quicker: Excellent quality, sporty design, smart functions and sturdiness are just some of the many beneficial features of our Catapult series.

- ✓ CLEVER & PRACTICALLY EQUIPPED
- ✓ HIGHLY ROBUST AND DURABLE
- ✓ SPORTY DESIGN
- ✓ THE RIGHT WARMTH

CROWN

Thanks to highly innovative materials and groundbreaking technologies, our Crown series is the line for all who want the best without any compromises.

- ✓ INNOVATIVE MATERIALS
- ✓ FUTURE-ORIENTATED TECHNOLOGY
- ✓ COOPERATION WITH VARIOUS COMPONENT MANUFACTURERS
- ✓ EXCLUSIVE DESIGN
- ✓ THE RIGHT WARMTH

Freezer Jacket CLASSIC

Extremely lightweight and flexible · with inserts in fluorescent yellow · suitable for temperatures down to -30°C · HTTY ripstop · outer material · chest pocket with pen compartment · inside mobile phone pocket · anti-stress zip insert · ReachEasy sleeves · concealing flap over zip · washable up to 40° C · Clo value: 3.57 · Class: 0.554 x2x

Material: 100% polyester

Item No.: W24J | Size: XS-5XL

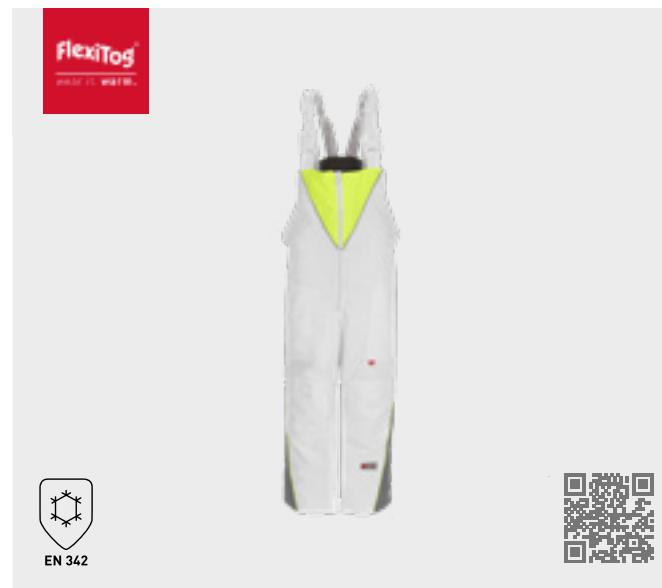

Quilted Jacket PERFORMANCE HYGIENE

Light padded quilted Jacket · high fleece stand-up collar with chin protection · inner chest pocket with pen compartment on the left · ergonomic fit with pre-shaped sleeves · close-fitting elastic cuffs at the end of the sleeves · extended back to warm the kidney area

Material: Shell: 100% polyester · Lining: 100% polyester · Insulation: 100% polyester 150g/m²

Item No.: FS669-00 | Size: XS-7XL

Freezer Bib Trousers CLASSIC

Extremely light and flexible · chest and back area with inserts in fluorescent yellow · suitable for temperatures down to -30°C · HTTY ripstop outer material · inside leg zip for easier closing · 2 outside pockets · adjustable, elastic straps · Clo value: 3.57 · class: 0.554 x2x

Drying Systems - Your Head Start in Employee Retention.

The biggest challenge in the freezer and logistics business is to find and keep employees. Investing in professional drying and hygiene systems delivers a positive contribution to hygiene and thus to the health and satisfaction of your employees. In addition, the product lifetime of your high-quality gear is increased. Compared to classic drying rooms, this solution also reduces your energy costs.

You will find many other models and products for your individual requirements. Our dedicated staff will help to find the optimal solution for you!

Request a free test of the Tantum Set 4 Premium drying cabinet for four weeks and see for yourself!

We Are Your Partner for Rental Textiles in the Food Industry.

The partnership between DECOGROUP and the Fortdress Group marks a significant step in the provision of customised services in the areas of rental textiles and protective workwear.

For Customers Who Expect More: Two Partners with the Customer in Focus.

DECOCLEAN and the Fortdress Group - the partnership for customised service that exceeds your expectations. Together, we offer you not only first-class rental textiles and protective workwear, but also a promise: that the customer always comes first. From customised solutions to fast response times, we are here to help you and ensure your satisfaction.

DECOCLEAN - Reliable and Innovative: Your Partner for Optimum Textile Care.

DECOCLEAN, with a history of over 45 years, has established itself as a leading provider of customised linen rental solutions. Its roots as a family business stand for first-class service and unrivalled quality.

As If Made for You: The Perfect Partnership for Customised Textile Service.

Together, DECOCLEAN and the Fortdress Group offer you not only customised service, but also maximum flexibility. As clothing professionals and laundry experts, we understand the importance of seamless processes for your company. That's why we make it possible for you to hand over workwear purchased from the Fortdress Group to DECOCLEAN for hire. This means that you not only receive high-quality workwear, but also a complete solution for care and maintenance.

Fortdress Group - Protective Workwear trusted by the Food Industry.

The Fortdress Group is known for its high-quality, certified protective workwear and clothing for the food industry. Their many years of experience and their role as a reliable partner have helped them to be recognised as one of the leading distributors and manufacturers in the industry.

Contact Us Now and Find Out How We Can Help Your Company Move Forward.

Our Partnership - Your Benefits.

-  High Customer Focus
-  Personalised Support
-  Flexible Service
-  Fast Response Time
-  Sustainable Processes
-  High-quality Products

Together we are at your disposal for customised solutions and first-class service. Contact us today and experience how our partnership can make your day-to-day work easier.

Finishing Techniques – Our Clothing with Your Logo or Lettering.

Customise your clothing professionally. In our range you will find a wide selection of products that we can customise with your own logo. On request, we can embroider or print your company logo or lettering on your clothing. This way you can score points with your customers thanks to the uniform appearance.

In our in-house logo department, we have been successfully implementing individual projects for our customers for many years. Simply contact us – we will be happy to advise you personally on our finishing options. Together we will then discuss the possible options for applying your own company logo or individual lettering.

More than Hygiene - discover our entire Range of Workwear!

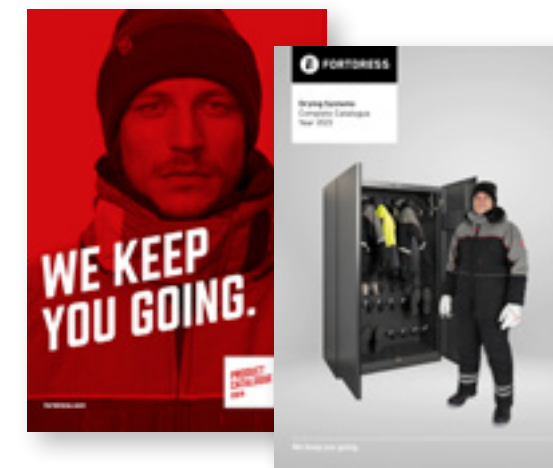

We have a wide range of functional and robust workwear to fulfil your needs even better. In addition to the products listed here, you will find our entire range of workwear and protective clothing for numerous areas of application in our other catalogues, whether for extreme temperatures,

specific industry requirements or simply for added comfort and safety - in our catalogues we offer you everything you and your employees need in everyday working life.

Order our complete catalogue now free of charge or download the digital version directly from the online shop.

For Your Perfect Shopping Experience: Visit Our New Online Shop Now!

In our new online shop, we offer you a shopping experience that is distinguished by its user-friendliness. We have worked hard to create a platform that not only meets your needs, but also makes your shopping as convenient and efficient as possible. Our shop is designed to make it easy for you to find exactly what you are looking for.

From general restructuring to the introduction of new innovative features, every addition to our shop is the result of careful planning and our goal to provide you with the best possible experience. Visit us at fortdress-group.com and feel the difference. We look forward to your feedback and hope you enjoy shopping with us.

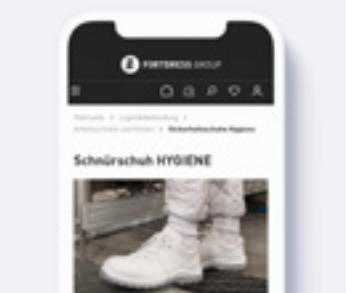

Restructuring and Detailed Product Filter

The entire navigation structure has been revised and re-arranged so that you can find your way around even better in the future. Our new, detailed filter options will help you find your way around in no time.

Extensive Product and Certification Information

Whether it's product details like materials, washing symbols, or the scope of application, you will now get all the essential information at a glance. We prominently display the certifications our products hold. Also, downloading declarations of conformity is possible.

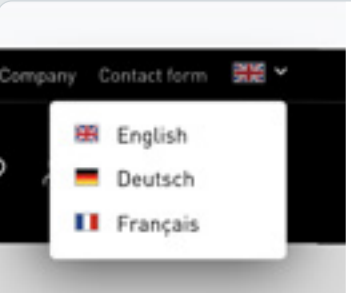

360-Degree Images and Impressive Detail Photos

All-Around Excellence: We are particularly proud of our new 360-degree images. Experience our own brand "Fortdress" in a new dimension: Each product can be viewed from all angles. And our new detail photos offer you an unprecedented closeness to our products.

Custom Products and Your Personal Conditions

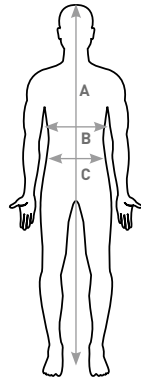

Individuality is a top priority for us: Benefit from your personal conditions directly in our shop. Upon request, we can also add all your custom products for you.

Our New Shop – A Real Linguistic Talent

Finally, our international customers have the opportunity to comfortably use our online shop. Our shop is now available in German, English, and French.

Clothing Size and Conversion Tables

Find your suitable clothing size.

Take the measurements A, B and C with a tape measure over your shirt. With the help of the following conversion table you can find your individual clothing size/unisex size.

On request you can also get custom-made products and special sizes.

This is how to measure:

A = BODY HEIGHT

Measured from head to foot

B = CHEST CIRCUMFERENCE

measured around the chest below the arms

C = WAIST CIRCUMFERENCE

measured around the waist (at the narrowest point)

Size Chart for Clothing		A	B	C
Unisex	Clothing Size	Body Height (in cm)	Chest (in cm)	Waist (in cm)
XXS	36 / 38	158 – 166	74 – 82	64 – 72
XS	40 / 42	162 – 172	82 – 90	72 – 80
S	44 / 46	168 – 176	90 – 98	80 – 88
M	48 / 50	172 – 182	98 – 106	88 – 97
L	52 / 54	178 – 186	106 – 114	97 – 107
XL	56 / 58	182 – 190	114 – 122	107 – 117
2XL	60 / 62	186 – 192	122 – 130	117 – 127
3XL	64 / 66	186 – 192	130 – 138	127 – 137
4XL	68 / 70	186 – 192	138 – 146	137 – 147
5XL	72 / 74	186 – 192	146 – 152	147 – 157
6XL*	76 / 78	186 – 192	152 – 158	157 – 167

* Larger sizes available. There is **no surcharge** on larger sizes.

Standards and Certifications

Detectable articles		
X-ray detectable		X-ray detectable products are visible to X-ray equipment and can also recognise non-metallic foreign bodies such as glass, stone or certain plastics. In contrast to metal detectable products, it recognises contaminants regardless of the material.
Metal detectable		Metal detectable products contain materials that can be recognised by a metal detector. It helps to identify metal parts in products that may be invisible to X-ray equipment.
Other		
Food contact compatible		Food contact compliant products fulfil EU and FDA requirements and do not release any harmful substances into food. They fulfil strict safety standards and are manufactured in accordance with GMP guidelines.
Clothing		
EN 342		Protective clothing against cold. Clothing systems according to EN 342 are used at temperatures below -5 °C.
Gloves		
EN 511		Gloves for protection against cold
EN 388		Protective gloves against mechanical risks must achieve performance level 1 for at least one of the properties (abrasion, cut, puncture or tear resistance). The higher the number, the better the test result.
EN 374		Protective gloves against chemicals and microorganisms
Shoes/Boots		
EN ISO 20345		Safety shoes with toe protection caps for high loads, whose protective effect is tested with an energy of of 200 joules . Additional CI = insulation against cold .
EN ISO 20345 S1		Safety toe cap
EN ISO 20345 S1P		Safety toe cap · puncture-resistant midsole
EN ISO 20345 S2		Water resistant · safety toe cap
EN ISO 20345 S3		Water resistant · safety toe cap · non-metallic puncture-resistant midsole (test nail D=4.5mm)
EN ISO 20345 S4		Water resistant · safety toe cap · waterproof boot
DGUV 112-191		Option to insert a certified orthopaedic insole · certification is retained
EN ISO 20347		Work shoes without toe protection , designed for use in professions where no specific toe protection is required. These shoes offer protection and comfort for working environments with medium to high loads. Additional CI = insulation against cold .

Ordering Terms & Conditions

Order

In order to execute your order, it is absolutely necessary to provide your complete address, customer number and telephone number. We assure you that your personal data will only be used in our company and will not be passed on to third parties. The minimum order quantity is 1 PU. With your order you accept our terms and conditions. First order only with advance payment.

Delivery

You can find our current terms of delivery at:

→ fortdress-group.com/en/delivery

Returns

You can find our current returns policy at:

→ fortdress-group.com/en/returns

Liability

Fortdress Group GmbH cannot accept liability for damage resulting from incomplete, late or non-delivery if this is caused by fire, strikes, lockouts, force majeure, delays in delivery by upstream suppliers or other circumstances.

Prices

All prices are unit prices (piece or pair) plus VAT. We reserve the right to make price errors, misprints and price changes. Product illustrations and colours are non-binding. We reserve the right to make changes without notice. Ownership of the goods remains with Fortdress Group GmbH until full payment has been received. The place of performance and jurisdiction for commercial and legal transactions of any kind is Siegen.

Payment

For payment within 10 days of the invoice date, we grant 2 % discount. Beyond this, the invoice amount is due within 20 days after receipt of the invoice.

Plus sizes

All items of the manufacturer Fortdress are available in every size at the same price. Oversize surcharges do not apply.

Logo embroidery

Your company name or logo or even the names of individual employees can be applied to the garments of your choice in various ways. Whether it's direct embroidery, a transfer logo or sewn-on patch, we have the perfect solution for your needs. Call us today for advice on the most suitable options for you.

Disclaimer

All information in this brochure is provided without any liability. Cannot accept any liability or responsibility for errors in content, typesetting, omissions, price quotations, etc. Our general terms and conditions apply.
