WORKING FOR HOURS IN THE FREEZER NEEDS A REAL MAN'S EFFORT.

FORTDRESS is an innovative and successful brand specialising in protective coldstore clothing for customers in the food logistics sector. Our brand has grown from year to year and is now a byword for safety at work. With customer service and advice on site, we stand for close customer contact. Our strength is particularly apparent wherever diverse requirements and custom-made products are desired.

OUR GOAL IS TO SUPPORT YOUR WORK.

We know how much effort workers in food logistics put in. Every day there is a demand for performance to achieve everything faster and faster. Our brand aims to support their work: more, easier, faster and safe. That's music to our ears. Do you fight the cold every day? Do you try to push your company forward every day? We fight every day so that you can work better. To all the workers out there, we keep you going!

PRODUCT SERIES

FOR BETTER WORK.

We offer clothing for every work area to enable our customers to work with fewer worries.

Our products are designed to support your work. They are lightweight, flexible, comfortable and have the details that make the difference. The ideal requirements to work effectively and profitably under tough conditions for longer periods of time.

FREEZER CLOTHING

Excellent insulation, lighter, more robust, more freedom of movement and comfort. That is what makes Fortdress freezer wear stand out. Because light, flexible and comfortable clothing means that your team can work effectively and, therefore, economically for long periods at cryogenic temperatures.

YOUR BRAND. YOUR DESIGN.

WORKWEAR WITH YOUR COMPANY'S DESIGN

PERFECTLY MATCHED TO YOUR BRAND.

We enjoy adjusting the products of your choosing to your corporate identity. Your employees represent your company with colour-coordinated clothing, including the company logo. This ensures a uniform brand appearance and a high recognition value among your customers. It also means your employees identify with your company.

Fortdress offers you the entire spectrum of customization, from simple application of your company logo to clothing designed entirely according to your specifications. Our service team is always at your disposal with detailed advice.

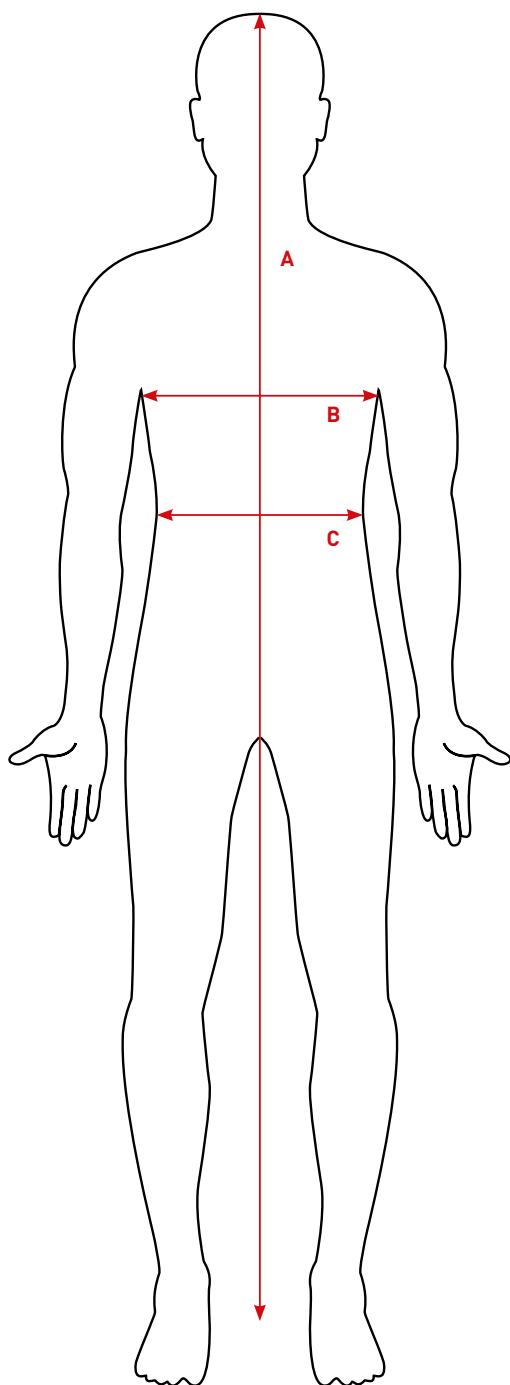

CI CLOTHING WITH JUST A FEW CLICKS.

With our unique online configurator we offer you the possibility to easily and conveniently adapt a selection of our workwear to your corporate identity and personalize it down to the smallest detail. For complex inquiries you can of course also use our customer service, which will not hesitate to advise you best.

[FORTDRESS.COM/CORPORATE](https://www.fortdress.com/corporate)

MEASURE CLOTHING SIZE

Find your suitable clothing size.

Take the measurements A, B and C with a tape measure over your shirt. With the help of the following conversion table you can find your individual clothing size/unisex size.

On request you can also get custom-made products and special sizes.

This is how to measure:

A = Body height

Measured from head to foot

B = Chest circumference

measured around the chest below the arms

C = Waist circumference

measured around the waist (at the narrowest point)

CONVERSION TABLES

CARE SYMBOLS

Washing															
Normal wash cycle	Delicate wash cycle	Normal wash cycle	Delicate wash cycle	Normal wash cycle	Delicate wash cycle	Extra delicate wash cycle	Normal wash cycle	Delicate wash cycle	Extra delicate wash cycle	Hand wash	Do not wash				
<p>The numbers in the washing tub correspond to the maximum wash temperatures, which must not be exceeded. - The bar below the washing tub indicates the need for (mechanically) gentler handling (delicate wash cycle). It indicates wash cycles that are, for example, suitable for easy-care items and items sensitive to mechanical stress. The double bar indicates wash cycles with even less mechanical impact, e.g. for wool.</p>															
Bleaching															
Chlorine and oxygen bleaching permitted				Only oxygen bleaching permitted / no chlorine bleaching				Do not bleach							
Tumble drying (drying drum)															
Drying with normal thermal stress				Drying with reduced thermal stress				Drying in tumbler not possible							
<p>The dots mark the drying phase of the tumbler (tumble dryers).</p>															
Ironing															
Iron at high temperature			Iron at medium temperature			Iron at low temperature, careful when ironing with steam			Do not iron						
<p>The dots indicate the temperature ranges of control irons.</p>															
Professional fabric care (cleaning drum)															
									No chemical cleaning						
<p>The letters are intended for use by chemical cleaners. They give an indication of the solvent in question. The bar below the circle indicates the need to keep either the mechanical load, the moisture and/or the temperature level under limits when cleaning.</p>															
									No wet cleaning possible						
<p>This symbol is used to indicate items that can undergo wet cleaning methods. It is displayed in the second row below the symbol for chemical cleaning. The bar below the circle indicates the need to keep the mechanical load under limits when cleaning (see Washing).</p>
